Open Badge Factory LTI Integration.

This LTI application provides integration between your LTI supported LMS site and Open Badge Factory.

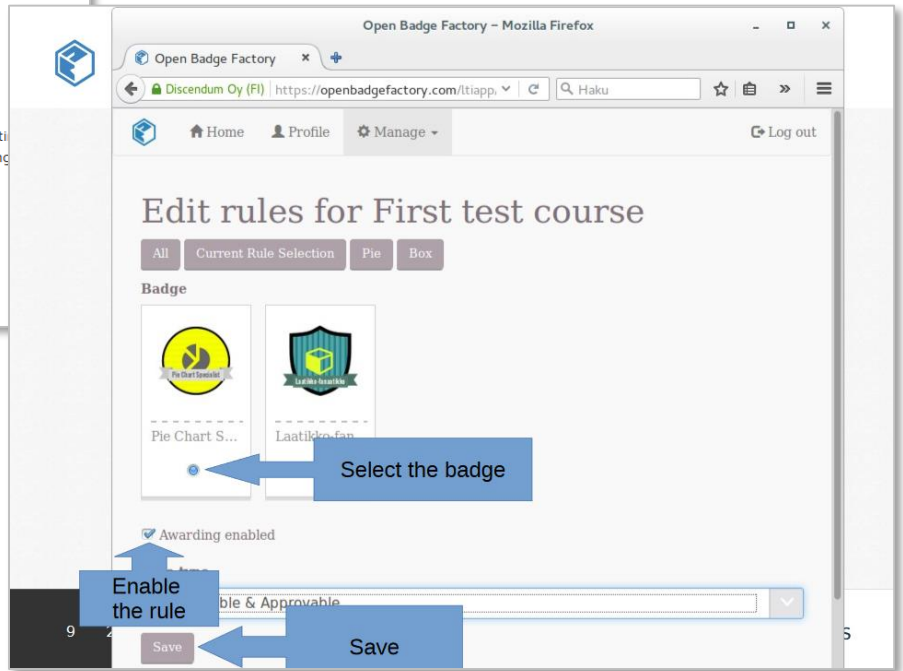

What is Open Badge Factory?

Open Badge Factory is a reliable and flexible platform for issuing Open Badges. It provides a comprehensive set of tools for creating and managing Open Badges. Open Badge Factory is what your organisation needs if you are planning on designing and managing meaningful, consistent and sustainable badge system that will build your reputation over time!

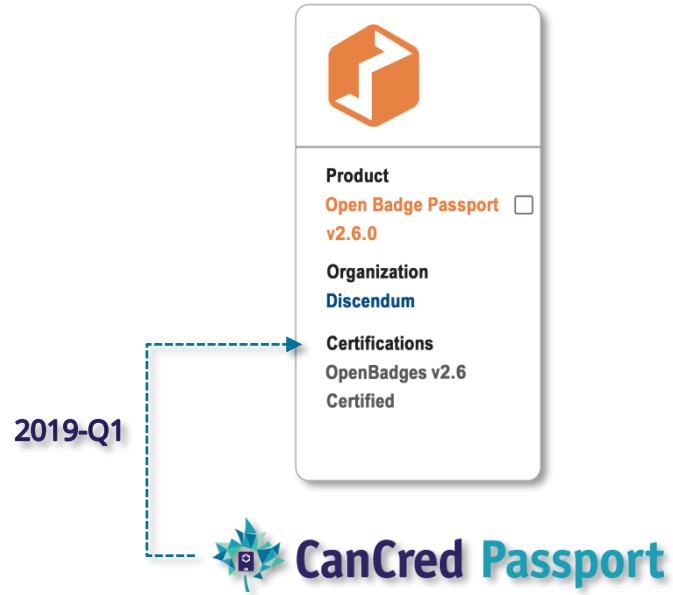

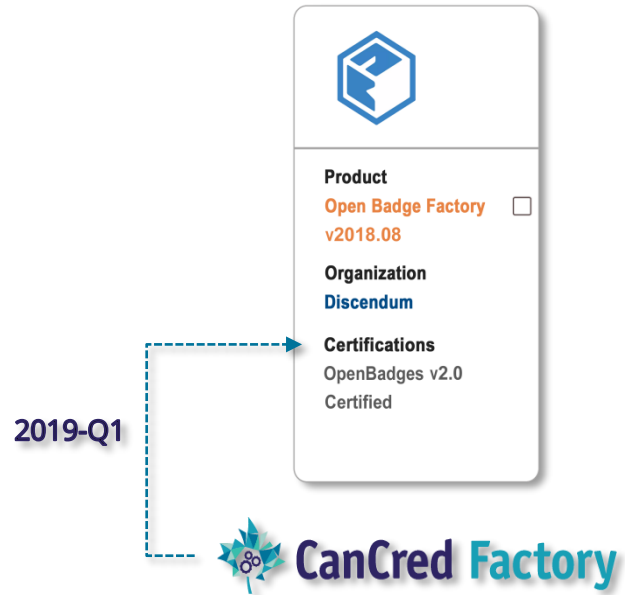

What features does LTI Integration provide?

- View badges awarded to you from Open Badge Factory.
- Instructors and Admins can issue badges.
- Set up badges as awards for course completion.
- Automatic issuing of awards.

- LEARNING RECOGNITION

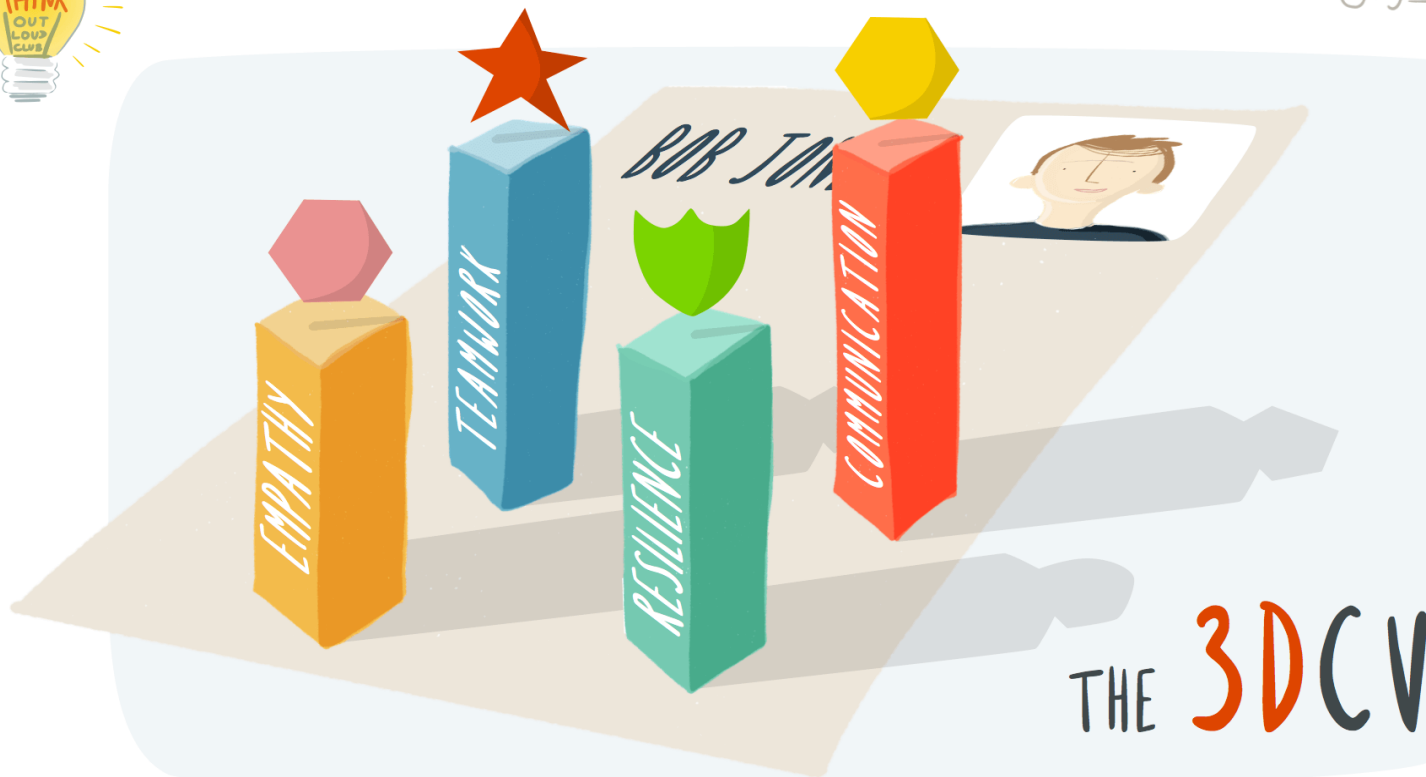

DRIVING GROWTH AND INNOVATION THROUGH TECHNOLOGY-ENABLED LEARNING

@bryanMmathers

THOUGHT: EDUCATION DESIGN LAB

FOCUS ON THREE STRATEGIES

STRATEGY 1

LEAD THROUGH
OPEN AND
COLLABORATIVE
PRACTICES

STRATEGY 2

BUILD CAPACITY
THROUGH
SHARED AND
COLLABORATIVE
SERVICES

STRATEGY 3

INSPIRE INNOVATION
THROUGH
INVESTMENT IN
APPLIED RESEARCH
AND DEVELOPMENT
FOR TECHNOLOGY-
ENABLED LEARNING

Virtual Reality Labs

Imagine using gamification elements such as an immersive 3D universe, storytelling, and a scoring system to stimulate students' natural curiosity and create connections between science and the real world.

LEARN MORE

Open Badges

eCampusOntario's Open Badging initiative will allow learners from across the province to receive digital badges that recognize the skills gained during experiential learning courses and/or co-curricular activities.

LEARN MORE

Experiential Learning

The goal for this experiential learning platform is that it enables educators and their academic institutions to increase student engagement and success, while developing industry relationships, through project-based assignments.

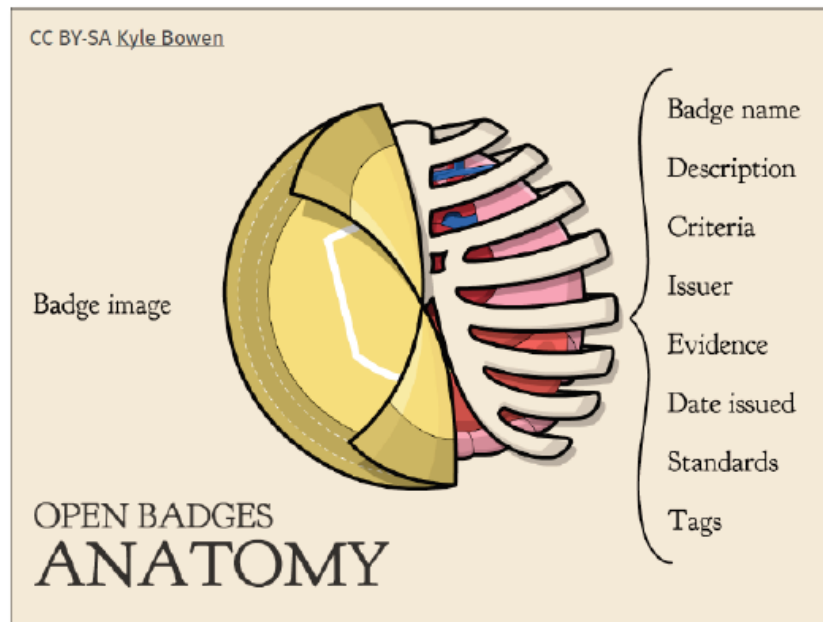

LEARN MORE

RETHINKING RECOGNITION OF LEARNING

Empowering the “t-shaped student”

- Co-curricular records
- Internships and practicums
- Community volunteer programs
- Self-directed practical experiences

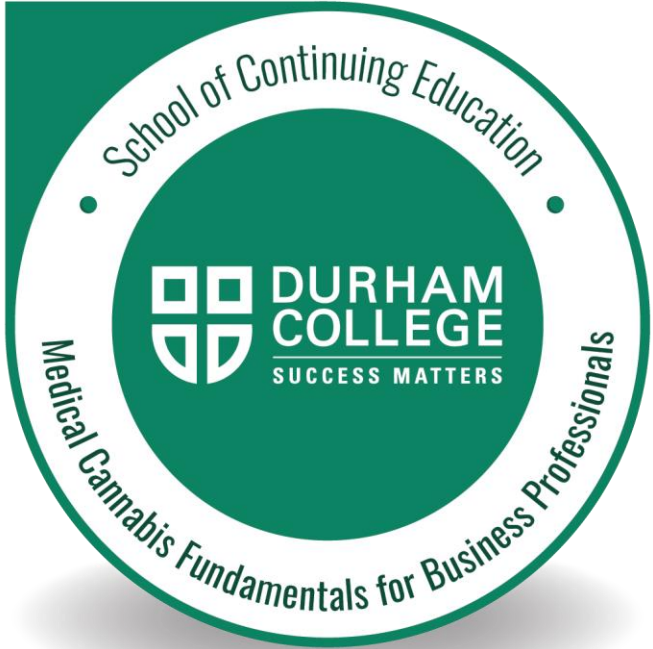

Enabling and authenticating
“can-do” skills and competencies

ANATOMY
OF

21ST CENTURY EDUCATORS

TEACHER FOR LEARNING

An understanding of how students learn and how to design effective learning activities and experiences.

CURATOR

A producer and consumer of appropriate educational resources through sharing and development.

TECHNOLOGIST

Fluency using learning technology in educationally effective ways.

COLLABORATOR

Sharing and enhancing one's own educational approaches through collaborations within, across and between disciplines.

SCHOLAR

An awareness and appreciation of effective, research-based, discipline appropriate pedagogical approaches.

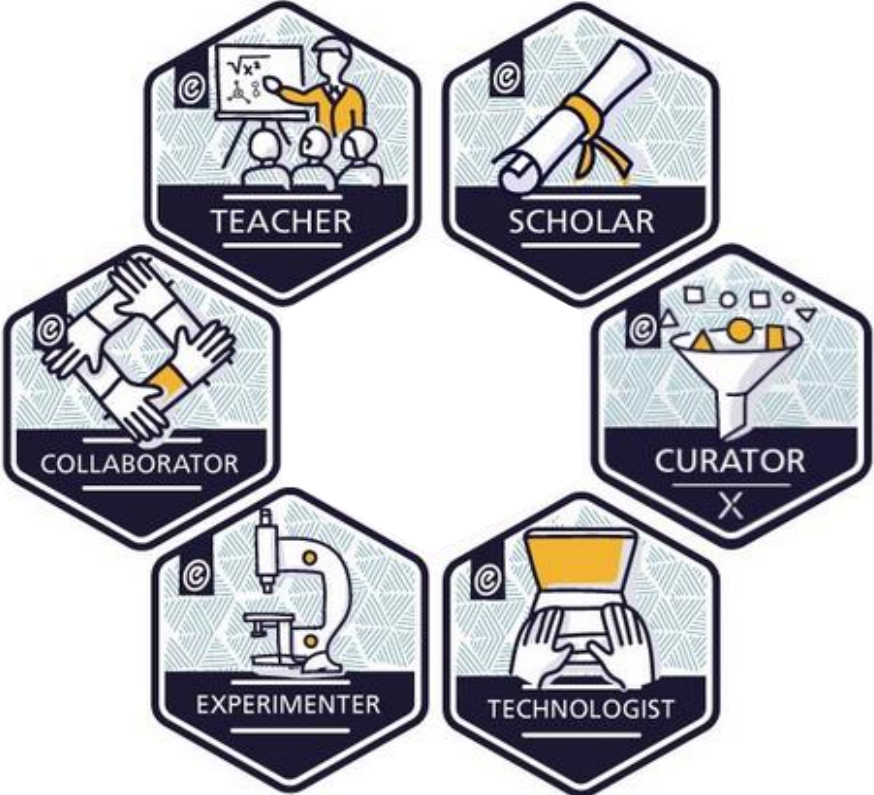

EXPERIMENTER

An openness to try, reflect and learn from new approaches, pedagogy and technologies to support student learning.

ONTARIO EXTEND

Helen DeWard

Modules for the Ontario Extend program to explore the six elements in the Anatomy of 21st Century Educators as described in the Simon Bates graphic.

ONTARIO EXTEND: TEACHER FOR LEARNING

Issued on: 17.5.2018

Issued by: eCampusOntario

Recipients of the Teacher for Learning badge will have explored how we learn and what we can do to ensure learning environments are effective. They have considered strategies for designing significant learning experiences that are grounded in and informed by research principles that foster student learning in specific contexts.

CRITERIA

Open criteria

ONTARIO EXTEND: TECHNOLOGIST

Issued on: 28.5.2018

Issued by: eCampusOntario

Recipients of the Ontario Extend Technologist badge have demonstrated the ability to select, use, and integrate technologies in a way that supports, facilitates, and enriches learning experiences.

CRITERIA

Open criteria

ONTARIO EXTEND: CURATOR

Issued on: 23.5.2018

Issued by: eCampusOntario

Recipients of the Ontario Extend Curator badge have explored ways to curate from the learners' perspective to create engaging, interactive, and open course materials. They are versed in Creative Commons and Copyright and have explored strategies to search for, find, and evaluate Open Education Resources (OER).
